Shelters for Israel has chosen Sulamot as the beneficiary of our fundraising effort.

SULAMOT– Music for Social Change – is an innovative and inspirational music education program for at-risk children. Sulamot focuses primarily on children with the least resources and greatest needs in peripheral areas and underprivileged communities. The program reaches children from many different backgrounds including immigrants from numerous countries, reflecting the diversity found in Israel. Sulamot was created as a joint program with the Israel Philharmonic Orchestra and Tel Aviv University in October 2010.

Invitation to Follow in August with more information about our Sulamot project and donation opportunities.
